They Help Our

JUNIOR CITIZENS

In just two short years, the Calgary Pony and Little League Baseball Association has done a remarkable job - helping boys to learn good citizenship through good sportsmanship.

To the volunteer coaches, referees and workers who donate their time . . . the public spirited sponsors who provide uniforms, equipment and funds . . . we extend our congratulations.

Your efforts on behalf of our Junior Citizens has warmed the hearts of all Calgarians.

MESSAGE FROM THE PRESIDENT

I wish to take this opportunity, on behalf of the Management of the Little League and Pony League Baseball, to thank everyone who helped to make this program a success. It is very nice to know that there are real sports-minded people like Stu Hart and his men who give of their time to help a cause like the Little League and Pony League Baseball.

I feel that the 700 boys or more who played baseball in the City of Calgary this past summer had a very successful year of good clean fun. I think everyone owes a great deal of gratitude to our coaches and managers who spent many hours of their own time training and working with our boys.

The next requirement for the coming summer is the formation of the "Colt" League, boys in this group would be 15 years and over. A great deal of help will be required in forming this league and getting it off to a good start. In addition to this we require addition help for the Little League and the Pony League.

My feeling is that if the people of our City really put forth an effort in this type of sport, we will gain two things:-

- (1) A good clean summer sport for many of our boys as they are growing up.
- (2) Ball players for our future senior teams and who knows, some may go professional.

Thanks once again for your kind support.

G. E. Shaw, President

PONY LEAGUE

It is not the primary intention of P-O-N-Y League to develop boys into major league baseball players but to provide them with wholesome recreation under close supervision during the summer months.

It seeks to teach a boy sportsmanship and fair play in competition with other boys under the rules and regulations of baseball, America's National pastime; to teach him self-respect and discipline, as well as respect for the rights of others; to teach him the values of team play and the rewards of hustling.

Above all it seeks to give him the ability to lose gracefully, for life is not usually a series of victories. There are bitter defeats and disappointments as well, and learning to accept these reverses courageously and with a smile is most

commendable. Though it is great to be a winner, it is far greater to be a good and gracious loser.

Such a program cannot be inaugurated or administered by good intentions or a kindly word of approval. It requires hard work by conscientious men and women and the monetary support of civic, service, fraternal, business, industrial and church organizations. The man-hours and the money invested pay high dividends.

The world cries urgently for young people of physical stamina and moral integrity who have an understanding of democratic principles and of our American way of life. Adult America must put its faith, its patience, its time and its money into its youth as an investment in the future.

Little League in Calgary

Little League Baseball, a sport practically unheard of in Calgary two years ago, is making tremendous strides in popularity and indications are that this season will be one of the most successful on record.

Sudden rise to prominence of the Little League is a fitting reward for the fellows who were in on the ground floor when the circuit was first started. These men fully realized the great need for more forms of athletic endeavour among our youngsters. Unlike a lot of others who incessantly talk of what should be done but make no move to do anything about it, the Little League men proceeded straight ahead with the plans.

It meant a lot of hard work for those involved but they were more than equal to the task. The organized districts and leagues and result is one of the finest Little League setups in existence.

Calgarians as a whole are proud of these men, especially the parents who are happy to see their youngsters engage in sports. Learning how to win and lose, while still a youngster, is an important step in equipping a person for the road of life that lies ahead.

Veteran baseball men, who are concerned over the lack of professional ball in a city the size of Calgary, are also deeply impressed by the Little League. They know that in years to come, Calgary will have a strong representative in the baseball wars, thanks to the Little League.

Best of luck to the youngsters of the diamond during their 1955 campaign. May they all learn to win gracefully and at the same time maintain the utmost respect for their opponents.

Little League Baseball was started in Calgary two years ago by a group of community minded men who were concerned about the ever increasing number of incidents of juvenile delinquency reported by the news services. They set out to try to mold better citizens for tomorrow, through the medium of sport, today. At the present time they have, in the Little League, eight teams in the National League, eight teams in the American League and five farm club teams for a total of 640 boys between the ages of 10 to 12 inclusive who are playing organized baseball. Pony League, started last year, consists of eight teams or 128 players between the ages of 13 and 14. It is hoped to expand this and next year start a Colt League for boys 15 and 16 years of age and gradually increase the age limit to 18. This would make it possible for a boy, starting at age 10, to play organized baseball for eight years.

Administering the teams, is a central board of governors, league executives, managers and coaches who, incidentally work only for the satisfaction of knowing that by their efforts, they may have helped some boy to get a better start in life.

The only requisite for a boy to belong to either of the Leagues is that he be within the qualifying age groups. No discrimination of any form is tolerated, and a boy's race, color or creed in no way affects his chances to play baseball. Incidentally, several of the boys who played baseball last year were former paralytics, and one boy in particular still played, though wearing a brace.

Problems are the same as those encountered by nearly every organization of this type, namely, trying to raise sufficient funds to purchase equipment and facilities to properly operate a baseball league. The league have acquired the required equipment, but in so doing, have gone into debt by nearly \$2,500.00. The leagues have attempted to reduce this debt by various methods, a Little League Baseball night at a local drive-in theatre, an old timers ball game, etc., but with very limited financial success. Latest effort is tonight's big wrestling tournament, made possible through the generosity of professional wrestlers and Stu Hart, President of the Foot-hills Athletic Club.

The leagues take this liberty of appealing to everyone personally, to lend support to this cause.
